# 黑鲨冰封制冷背夹3 磁吸版

Black Shark MagCooler 3 Pro

使用产品前请仔细阅读本说明书，并妥善保管。
Read this manual carefully before use, and retain it for future reference.

01. Device Layout

Type-C power port   On/Off button

02. How to use your cooler

Please remove the protective film from the bottom of the cooler before use. Attach the cooler to the back of the device via magnetic force.

03. Configuring the cooler

1. Download and install tha app

2. Switch on the cooler

① Connect the adapter to the cooler through the USB-C cable. Make sure the output power of the adapter is no less than 20W.

② Switch on the cooler.

★ Indicator is on: the cooler is working.

★ Indicator is off: the cooler is closed.

★ Once the power is on, the cooler enters Bluetooth pairing mode. If no phone connect to the cooler, the green light will flash for 5～10 seconds, and then the lighting effect will be restored to the user settings or factory Overclocking mode. Bluetooth pairing mode will always be on.

3. (Optional)* Configure the cooler
① Turn on Bluetooth on the phone and connect the cooler in the app.
② Set the lighting effect and cooling mode. Also, you can view the
   temperature data of the cooler in Shark Space or the app.
★ If "(Optional)Configure the cooler" is not performed, the cooler will be the
   default mode.
★ When the cooler is working, the temperature of the device decreases.
   Then the warm and humid air will condense into water droplets and
   attach to the surface of the cooler. This is normal.
